INNOVATING TOGETHER

PROTECTION AND COMFORT FOR EVERYONE. ANY TIME.

Top quality – Made in Germany

As a global filtration specialist and the largest German non-wovens manufacturer, we demand the highest quality from our products. The development and production of medical face masks is carried out in Germany.

Comfortable to wear

The special structure of the three protective layers reduces the release of droplets while still allowing for easy breathing. The soft nonwoven fabric offers optimum wearing comfort – even over longer periods of time. Its skin compatibility was rated “excellent” by Dermatest. All materials used are also latex-free.

Individually adaptable shape

Thanks to their folding design and the nose clip, the one-size masks can be individually adapted to the shape of the face. The round ear loops ensure a comfortable fit.

LABS-compliant materials

All materials are LABS-compliant in accordance with the requirements of test class B of VDMA 24364. This means that the face masks can also be used with confidence in industrial painting environments.

Medical face mask TYPE II (EN 14683)

Externally conducted laboratory tests confirm a Bacterial Filtration Efficiency (BFE) >98% and thus a high separation of aerosols containing viruses and bacteria. The masks are intended for single use.

BREATHABLE

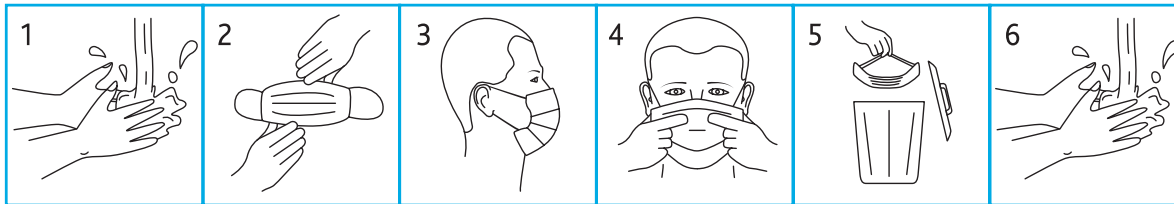

SOFT

3 LAYERS

SAFE APPLICATION

Please note:

Handling and putting on/off only with clean hands.

1. Wash hands with detergent or disinfect them upfront.
2. To put the mask on, unfold it.
3. Place it over mouth and nose.
4. The nose clip is at the top and for a good fit adjust nose clip symmetrically to the nose shape with both hands. Exchange mask once it is wet.
5. Each mask is disposable.
6. Wash hands after disposing.

OPTIMALLY CARED IN EVERY CASE

Packaging units

50

Small box:

Contains 50 masks

Dimensions in mm: L 190/W 100/H 85

1,500

Large box:

Contains 30 small boxes (1,500 masks)

Dimensions in mm: L 600/W 400/H 280

22,500

Pallet:

Contains 15 large boxes
(22,500 masks in total)

Dimensions in mm:
L 1,200/W 1,000/incl. pallet H 900

Article

Medical face mask

HyMa-M-1520-FFT

Minimum order quantity: 7,500 masks

Fiber composition: 100% polypropylene.

Any colour changes that might occur have no impact on the function.

Store in a clean, dry and cool condition, and do not expose to direct sunlight.
