PJR 324–327*	Twist & Fix LP 324 series cartridges DIN LP 327 series cartridges	Polyamide

* Available in versions to be used in explosive zones.

The application

PJR pulse-jet reflectors are available as an accessory and are the perfect match for filter cartridges. They improve air pressure behavior during the filtration operation by optimizing the intake of secondary air.

When using Viledon® filter cartridges these pulse-jet reflectors can be easily attached with snap hook technology.

The special characteristics

- The proven pulse-jet reflector system from Freudenberg Filtration Technologies – now further developed and optimized.
- Unique solution with new snap hook technology. PJR snaps onto the cartridge flange.
- New: PJR 327 now available for DIN cartridges.
- Easy installation – simply insert them into the cartridge – Click & Fix.
- Can be ordered as an optional accessory.
- Simple retrofitting for Viledon® filter cartridges as well as many other commercially available cartridge models.

- The space-saving solution for optimizing pulse-jet cleaning: thanks to PJR's compact configuration, the clean gas chamber can be made smaller or narrower.
- Material: polyamide
